## Vorwort.

---

Die Veröffentlichung, deren erster Band hier vorliegt, soll einen vollständigen Abdruck der Studentenmatrikel der im Jahre 1506 gegründeten Universität zu Frankfurt a. O. mit den dazu nöthigen Registern enthalten. Die Universität bestand bis zum August des Jahres 1811 und wurde dann nach Breslau verlegt. Aus der Zeit des Bestehens der Hochschule zu Frankfurt ist die Studentenmatrikel bis auf ein Jahr vollständig erhalten<sup>1)</sup>, so daß man ein vollkommen genaues Bild von dem Besuche der ältesten vaterländischen höheren Bildungsstätte aus einem Zeitraum von mehr als drei Jahrhunderten erhält und die Namen aller derjenigen erfährt, die auf der Viadrina studirt haben. Sie kamen von nah und fern und es gewährt ein großes Interesse, aus der mehr oder weniger großen Anzahl der aus einer Gegend oder aus einem Orte Stammenden den Bildungsgrad dieser Heimathsstätten abschätzen zu können. Denn man wird nicht fehlgehen, wenn man eine feststehende Wechselwirkung zwischen der Bildungsstufe einer Gegend und der Anzahl der von ihr entsendeten Studirenden annimmt. Und umgekehrt wird man auch behaupten dürfen, daß je mehr Studirende aus einem Landestheile nach vollendetem Studium wieder dorthin zurückkehrten, desto mehr sich Bildung und Kultur daselbst ausbreiteten.<sup>2)</sup>

1) Bgl. unten S. VII. 2) Bgl. die lehrreiche und sorgfältige, aus der Handschrift des I. und II. Bandes dieser Matrikel geschöpfte Arbeit des Archivars Dr. Potendauer in Breslau. Er hat im 62. Bande der Zeitschrift „Neues Lausitzisches Magazin“ S. 181—205 die „Sechshundert auf der Universität Frankfurt a. O. in der Zeit von 1506 bis 1606“, d. h. die 509 Namen der aus Görlitz, Lauban, Banzen, Zittau, Löbau und Ramenz stammenden Studirenden zusammengestellt und mit biographischen Nachweisungen und einem Register versehen.

Und auch nach anderer Seite hin ist das Studium der Matrikel erspriesslich. Denn auch für genealogische und familiengeschichtliche Forschungen bietet sie ein weites, bisher unangebautes, ergiebiges Arbeitsfeld und man darf der Hoffnung Raum geben, daß zahlreiche mairtische und andere Familien in den anscheinend so eintönigen Spalten der nachfolgenden Bogen eine stattliche Reihe von Mitgliedern aufspüren werden, deren Existenz bisher nicht beglaubigt oder überhaupt unbekannt gewesen ist.

Für die Spezialgeschichte der Mark Brandenburg und der benachbarten Provinzen seit der Reformation darf die vorliegende Matrikel daher ein nicht unbedeutendes Interesse beanspruchen. Durch viele kleine annotirte Bemerkungen, die den Namenreihen eingestreut sind, gewährt sie dann auch für die allgemeine Geschichte einige nicht werthlose Beiträge. — Und wenn wir sie sodann als Glied in der immer größer werdenden Reihe der Universitätsmatrikeln betrachten, welche die Presse verlassen haben oder in Kurzem erscheinen werden, so gewinnt sie noch erheblich an Werth und trägt in Gemeinschaft mit den bisher veröffentlichten Matrikeln von Bologna, Erfurt, Heidelberg, Krakau, Prag, Rostock, Wien und Wittenberg und den demnächst erscheinenden Matrikeln von Köln und Greifswald auch an ihrem Theile mit dazu bei, die immer mehr aufblühenden Studien für Erforschung der Geschichte der Universitäten und der gesamten gelehrten Bildung, des Beamtenthums und der allgemeinen Kulturgeschichte zu fördern und auszubreiten.

Die Geschichte der Universität Frankfurt harret noch einer eingehenden Bearbeitung. Was Beckmann<sup>1)</sup> darüber gesammelt hat, ist zwar werthvoll, ja seine biographischen und bibliographischen Mittheilungen über eine lange Reihe von Professoren werden dauernd sehr brauchbar sein, doch besteht seine Sammlung von Quellenmaterial nur aus wenigen Stücken, die nicht ausreichen, um darauf eine Geschichte der Universität aufzubauen. Karl Renatus Hausen sodann, der Rektor der Universität aus dem Jahre 1800, behandelt in seinem Buche<sup>2)</sup> die Universität auf 150 Seiten, von denen aber nur 16 Seiten die Geschichte derselben bis zum Jahre 1640

1) Notitia universitatis Francofurtanae etc. Francf. 1707. Fol.

erzählen, bis zu dem Zeitraume also ungefähr, aus dem die Matrikel die nachfolgenden beinahe 800 Seiten füllt. An dieser Stelle, etwa als Einleitung zu dieser Ausgabe, auf die Geschichte der Universität näher einzugehen, verbietet der Raum; denn der Stoff für die Geschichte unserer mährischen Hochschule ist so reich und werthvoll, die Fakultätsakten, die Stipendiansachen und viele andere Gruppen sind so ergiebig und umfangreich, daß dieses schöne historische Material eine eigene Bearbeitung fordert, welcher dann die gedruckte Matrikel ebenfalls als Quelle zu dienen haben wird. Für jetzt mag es genügen, darauf hingewiesen zu haben, und es möge nun hier nur eine Beschreibung der Matrikelhandschriften und eine kurze Darlegung der bei der Herausgabe befolgten Grundsätze folgen.

Die Matrikel von Frankfurt ist in fünf Foliobänden erhalten. Ursprünglich gab es noch einen sechsten Band, einen schönen Pergamentkoder, welcher in rothes Leder gebunden war. Es ergibt sich diese Thatsache aus einer Bemerkung zum Jahre 1541 (vgl. S. 85). Die einzige Lücke nämlich, welche die Matrikel aufweist, umfaßt die Zeit vom Herbst 1541 bis zum Herbst 1542. Warum die Inscriptionen dieses Jahres in dem jetzigen ersten Bande der Matrikel fehlen, ist nicht mehr zu erkennen. Ausdrücklich aber wird dort gesagt, daß die hier vermifsten Eintragungen sich »in altero volumine membraneo (!) rubeo corio obducto« befunden haben; und am Schlusse des Jahres 1553 (vgl. S. 123) steht von gleichzeitiger Hand vermerkt: »Hic finis est matriculae et voluminis seu codicis membranei primi universitatis, quo intitulatorum . . . nomina continentur usque ad annum Christi MDLIII . . .«. Der jetzige erste Band der Matrikel ist nun größtentheils auf Papier geschrieben und reicht weit über das angegebene Jahr 1553 hinaus (bis 1587), während der nachstehend als zweiter Band beschriebene Theil der Matrikel mit 1553 beginnt und ebenfalls auf Pergament geschrieben ist. Es hat mithin einen anderen ersten Band der Matrikel gegeben, welcher die Jahre 1506 bis 1553 umfaßte und ein stattlicheres Äußeres hatte, als der jetzige erste Band, welcher die Vorlage für den verlorenen ersten und den noch erhaltenen zweiten Band gebildet haben wird, aus welcher dieselben in sorgfältiger Ausstattung zu Repräsentationszwecken abgeschrieben wurden.

Der auf uns gekommene erste Band der Matrikel in kleinem Folio-

format enthält 327 Blätter, von denen die ersten 34 aus Pergament, die übrigen 293 aus Papier bestehen. Er umfaßt die Eintragungen der Jahre 1506 bis 1587, von denen die ersten 15 Jahre (bis Ostern 1521) auf Pergament geschrieben sind, dessen Seiten je zwei Spalten enthalten.<sup>1)</sup> Halbjährlich wechselt die Hand des Eintragenden, in dem wir fast überall den Rektor des Semesters zu sehen haben, nur ausnahmsweise hat ein Schreiber die Namen verzeichnet. Die Semester begannen am S. Georgstage (23. April) und am S. Gallustage (16. Oktober). In den beiden ersten Jahren war nur ein Rektor für das ganze Jahr bestellt, und dieselbe Einrichtung, nämlich das Vorkommen nur eines Rektors, findet sich nachher noch öfter, so z. B. 1516, 1518, 1520—1533, 1541, 1613, 1625, 1631, 1634 und dann dauernd von 1751 an. Wir haben uns das bei der Inscripction eingeschlagene Verfahren so zu denken, daß die ankommenden Studirenden ihre Namen einem Beamten, dem depositor, angaben, welcher sie vorläufig notirte. Aus diesen Konzepten hat dann der Rektor mehr oder weniger bald darauf die Abschrift in die Matrikel gemacht oder in seltenen Fällen durch einen Dritten machen lassen. So erklären sich viele offenbare Schreibfehler, Auslassungen und Nachträge. — Das Buch ist in einen mit vielen figürlichen Darstellungen geschmückten gepreßten Schweinslederband gebunden, dem die Jahreszahl 1564 aufgedruckt ist. Ob die Matrikel erst in jenem Jahre eingebunden ist, muß dahingestellt bleiben. — Die immatrikulirten Studenten und anscheinend auch die Professoren sind nach den Landsmannschaften in vier Nationen geordnet, wobei im Allgemeinen die Gegend der Herkunft die Zugehörigkeit zu der einen oder anderen Nation entschied, ohne daß es immer ganz genau damit genommen wurde. Frankfurt hatte eine märkische, eine schlesische, eine preussische und eine fränkische Nation. Diese Einteilung in Nationen erscheint in der Matrikel bis 1527 und dann noch einmal im Jahre 1542. Von 1543 an finden wir die Nationenbezeichnung nur noch in den Einleitungsworten zu den einzelnen Semestern, wo eine Randbemerkung jedesmal angiebt, aus welcher Nation der Rektor gewählt war, was in regel-

mäßiger Reihenfolge aus den vier Nationen erfolgt zu sein scheint. Wo etwa von der Reihenfolge abgewichen ist, wurde der Neugewählte in diejenige Nation versetzt, welche den Rektor stellte. (Vgl. z. B. 1615, S. 595; 1622, S. 663 und 1630, S. 708.) — Vielfach ist der Text von späteren Händen corrigirt und glossirt, den Überschriften ist der Name der an der Spitze stehenden Nation hinzugefügt, es sind kurze biographische Notizen, öfters sogar von verschiedenen Händen, eingestreut, oder man hat die Zahlen der Inskriptionsgebühren zusammengezählt u. dergl. m.

Der zweite Band tritt stattdlicher auf. Er besteht, wie schon oben bemerkt, ganz aus Pergamentblättern, und sein Einband, ein Holzdeckel, dem ein gepreßter Schweinslederüberzug gegeben ist, mit messinginen Eden und Schließen und der Aufschrift: »*Matricula academie Francophordiane 1556*«, ist älter als der des ersten Bandes. Dennoch ist sein Inhalt ohne Bedeutung, denn seine 94 Blätter enthalten nur eine Abschrift desjenigen Theiles des ersten Bandes, welcher die Jahre 1553 bis 1581 und das Wintersemester 1591 umfaßt. Meist haben dieselben Hände die Eintragungen in beiden Bänden gemacht, hie und da aber erkennt man im zweiten Bande deutlich die sorgfältige Hand des Abschreibers im Gegensatz zu den häufig sehr undeutlichen und unschönen Schriftzügen des gelehrten Rektors. Auch hier sind die Seiten in zwei Spalten getheilt und auch hier finden sich nicht selten Zusätze und Randbemerkungen, welche von gleicher Hand dem ersten Bande eingefügt sind. Einen schönen Schmuck hat dieser, anscheinend für die Repräsentation bestimmte Band <sup>1)</sup> durch zahlreiche Malereien erhalten, indem eine Reihe der Rektoren und einige adeliche Mitglieder der Studentenschaft ihre Wappen in meist feiner und guter Ausführung der Matrikel widmeten. Denn gern wurde Mitgliedern hervorragender Adelsfamilien das Rektorat übertragen, um dadurch zum Glanze der Hochschule beizutragen, denen dann aus der Reihe der Professoren ein Prorektor beigegeben wurde. Die meisten der eingemalten Wappen gehören solchen adelichen Rektoren an: wir finden die Wappen der Gänse von Putlitz, der Putbus, Schulenburg, Wiberstein, Czernikow, Promnitz und Willich und außerdem die der Familien Coszelicz, Pempow,

Danaburg und Oporow, der Rektoren Wolfgang Justus und Christian Poley und ein nicht zu bestimmendes Wappen. Über den Text dieses Bandes ist noch zu sagen, daß er mit dem des ersten Bandes fast ganz und vollkommen übereinstimmt: die wenig zahlreichen abweichenden Lesarten sind in den Anmerkungen, welche mit B bezeichnet sind, hervorgehoben worden. —

Im Gegensatz zu dem eben beschriebenen Bande ist der dritte Band von sehr schlichtem Aussehen. Er besteht aus 591 beschriebenen Papierblättern und ist in einen mit Leder überzogenen Pappband gebunden, dessen unterer Deckel verloren ist. Der obere Deckel ist mit dem schlecht erhaltenen gepreßten sächsischen Wappen geschmückt, welches die Unterschrift: »Von Gottes Gen(aden) Augustus« hat. Der Band umfaßt die Jahre 1588 bis 1685, deren Namenreihen mit halbjährlich wechselnden Händen eingetragen sind. Im Allgemeinen gilt von ihm das, was über den ersten Band gesagt ist. Auch dieser Band enthält eine Anzahl mehr oder weniger gut gemalter Widmungsblätter, unter Anderen das Wappen der Universität aus dem Jubiläumsjahre 1606, mit der Darstellung der Jungfrau Maria mit dem Christuskinde, und die Wappen der Herzoge von Münsterberg, Brieg und Liegnitz, der Freiherren von Sedlnitz, Würben und Freudenthal, Biberstein, v. Zedlitz-Neukirch, Nechenberg und in besonders guter Ausstattung das des Kurprinzen Georg Wilhelm von Brandenburg, geb. 3. November 1595, der im Wintersemester 1611 Rektor war. In einem eigenhändigen Schreiben<sup>1)</sup> an seine „freundtliche herzvielgeliebte Frau Mutter“ berichtet er am 23. Oktober: „Nächst Galli hab ich das Rectorat empfangen und ein convivium gehalten gestrigen Tages und die Schlesiße Fürsten sowohl, auch alle professores zu gaste gehabt.“ Auf dem Lederdeckel eines Jurisdiktionsprivilegiums des Kurfürsten »Hanss Sigissmundt« für die Universität vom 30. Mai 1617<sup>2)</sup> ist das sonst nicht bekannte Bildniß des Kurprinzen aus der Zeit seines Rektorats (»aetatis 17«) in Gold eingepreßt.

Der vierte Band, ein Foliant in starkem Ledereinbände mit reichen Messingverzierungen und dem Titel »Matricula Universitatis Franco-

furtanae«<sup>1)</sup>, welcher ebenfalls zur Repräsentation gebient zu haben scheint, zählt 494 beschriebene Blätter von Papier und umfaßt die Matrikel der Jahre 1685 bis 1805. Vorgebunden sind einige gedruckte Blätter: »Matricula universitatis electoralis Francofurtanae incepta anno Christi 1685, die Galli« mit einem Verzeichniß der ordentlichen Professoren und ein mit dem Wortlaute des »Iuramentum academiae Francofurtanae« bedrucktes Pergamentblatt. Eine Fülle gemalter Wappen, meist stattliche Pergamentblätter, ist mitgebunden, doch reichen sie dem Buche nicht eben zum Schmucke, da die Malereien zu sehr dem Zeitgeschmacke huldigen, um noch Anspruch auf Schönheit machen zu können. Wir finden die Wappen der Herzoge von Württemberg, der Grafen von Reuß, Promnitz, Barfus, Blumenthal, Rebern, Schütz-Görz, Solms und Reichenbach, der Freiherren von Wolzogen-Neuhaus, Schönaich und Schlichting. Die Eintragungen sind auch hier von verschiedenen Händen und die aus den Jahren 1787 bis 1805 sind lediglich Kopie aus dem Schlußbände der Matrikel. — Vom Herbst des Jahres 1768 an erhält die Matrikel in Folge eines „Allergnädigsten Königlich-Spezial-Befehles“ vom 20. Juli 1768 eine neue Einrichtung. Den einzelnen Namen sind nämlich hinfort in mehreren Spalten mannigfache Personalnotizen über Herkunft, Alter, Bildungsgang, Lebensberuf des Vaters u. a. m. hinzugefügt, welche ein beachtenswerthes biographisches Material enthalten, das namentlich späteren Zeiten sehr willkommen sein wird.

Der fünfte Band endlich, in braunes Leder gebunden, enthält auf 429 Folioseiten von Papier die Namen der in den Jahren 1788 bis zum 26. August 1811 Immatrikulirten. Er ist also zum Theil Dublette, gewährt aber dadurch ein besonderes Interesse, daß sich hier die Studierenden eigenhändig eingeschrieben haben. Dem Anscheine nach ist aus diesem fünften Bande die Reinschrift im vierten Bande hergestellt worden.

Um schließlich noch ein Wort über die Grundsätze bei der Drucklegung zu sagen, so genüge darauf hinzuweisen, daß die heutzutage allgemein gültigen Regeln für Urkundenpublikationen auch hier beobachtet sind, wo

es sich um den Abdruck der älteren Theile der Matrikel handelte, und daß die neueren Theile, wo von der Beobachtung eigentlicher paläographischer Regeln nicht mehr die Rede sein kann, diplomatisch genau mitgetheilt worden sind. Spätere Zusätze von anderer Hand als die, welche die Eintragungen gemacht haben, sind kursiv gesetzt, die zahlreichen sich immer wiederholenden Anmerkungen am Rande sind abgekürzt wiedergegeben worden, so daß z. B. stets statt iuravit — iur., statt rectore — rect., statt magistro — m. u. dergl. m. angewendet worden ist. Wo die Lesarten zweifelhaft sind, wo man z. B. nicht genau unterscheiden kann, ob ein n oder u steht, ob es Hande oder Haude, ob Hanschilt oder Hauschilt heißt, ist ein Fragezeichen, wo eine Bezeichnung augenscheinlich fehlerhaft ist, wo z. B. Goricio-Silesius statt -Lusatus steht, ist ein Ausrufungszeichen dem Worte hinzugefügt worden.

Der hier vorliegende Band bildet etwa die Hälfte der ganzen Matrikel; der in Abschrift bereits vollendete zweite Band wird die Matrikel bis zum Jahre 1811 umfassen und ein dritter Band ist dazu bestimmt, ein ausführliches Personen- und Ortsregister über die ganze Matrikel aufzunehmen.

Berlin, am 30. Oktober 1887.

[1]n principio erat verbum et verbum erat apud Deum et Deus erat fol. 1v.  
verbum. Hoc erat in principio apud Deum. Omnia per ipsum facta sunt et  
sine ipso factum est nihil, quod factum est. In ipso vita erat et vita erat lux  
hominum et lux in tenebris lucet et tenebre eam non comprehenderunt. Fuit  
5 homo missus a Deo, cui nomen erat Johannes; hic venit in testimonium, ut  
testimonium perhiberet de lumine, ut omnes crederent per illum. Non erat ille  
lux, sed ut testimonium perhiberet de lumine. Erat lux vera que illuminat  
omnem hominem venientem in hunc mundum. In mundo erat et mundus per  
ipsum factus est, et mundus eum non cognovit. In propria venit et sui eum  
10 non receperunt. Quotquot autem receperunt eum, dedit eis potestatem filios  
Dei fieri his qui credunt in nomine eius. Qui non ex sanguinibus neque ex  
voluntate carnis neque ex voluntate viri sed ex Deo nati sunt. Et verbum caro  
factum est et habitavit in nobis et vidimus gloriam eius, gloriam quasi unigeniti  
a patre plenum gracia et veritate. Deo gracias.

15 [Ego, N., iuro vobis rectori vestrisque successoribus obedienciam in fol. 2  
licitis et honestis et servare statuta et statuenda pro posse meo et quod bonum  
huius universitatis velim, ad quemcumque statum pervenero, fideliter procur-  
rare et quod iniuriam propriam non velim per me ipsum aut alium vindicare,  
sed super hoc rectoris officium implorare; item quod non velim uti universi-  
20 tatis conservatorio nisi prius obtento rectoris signeto; item iuro vobis rectori, 20  
quod, si in aliquo forefacto publico et notorio quod absit deprehensus fuero et  
monitus ab eo desistere noluero, quod tunc ad rectoris requisicionem infra tem-  
pus mihi assignatum ab hac civitate et universitate absque contradictione et more  
dispendio velim recedere meque ad domum parentum vel amicorum meorum  
25 presentare et inde infra mensem non recedere. Sicut me Deus adiuvet et 25  
sancta Dei evangelia.

Ego N. sancte iuro magnifico domino rectori, me ipsi et senatui eius obedientiam et reverentiam, quae legitimo magistratui debentur, sedulo et semper praestitutum nec facturum aliquid contra academiae huius dignitatem et statum improbe ac aelerate; sed hoc potius, sive hic versor sive hinc discessero, operam daturum, ut legum et totius academiae autoritas salva sit et augeatur; nec velle me illatam iniuriam aut per me ipsum aut per alios quoquo modo vindicare, sed semper, quantum fieri potest, rectoris officium implorare et vindictam ei commendare; velle me etiam, si quod insigne flagitium (quod Deus prohibeat) commisero, poenam carceris vel relegationis vel aliam quamcumque ex statuti vel aliqui irrogatam absque contumacia et recusatone subire; quodsi etiam vel hic mansero vel hinc discessero, semper tamen me beneficiorum academiae memorem et factorem eius, ad quemcumque dignitatis gradum pervenero, futurum esse. Sicut me Deus adiuvet.

Anno Christi 1649, die 19. Augusti, m. Melchior Hofmanus Francofurtanus Mar- 5  
chicus testimonium depositionis suae prorectore m. Tobia Magiro die 28. Augusti anno  
1633 sub sigillo academiae sibi datum officio academico exhibuit. Quia vero nomen ip-  
sius in hac m. Magiri prorectura non extitit, reponendum id hic censuit sexto decimo  
10 anno post m. Georgius Mellemanus rector tum temporis, ipsiusque m. Hofmani fidem  
dato ab ipso iureiurando academiae obstrinxit anno et die ut supra. 10

NB. Anno 1633 sub finem Augusti tanta fuit in urbe trepidatio ob reditum  
Caesareanorum civibus necem minitantium, ut civitas utraque urbem profuga dese-  
ruerit: nunc evenit facile, ut depositor nomen Hoffmanni non praesentavit, ipse sibi  
15 in tanto tumultu prospiciens.
